Legal Experience

March 2017 – May 2017 - Big Voice London

- I was able to engage in weekly lectures focusing on different aspects of the law. I used my knowledge from the weekly lectures to engage in case studies with my peers that covered a range of topics
- I was responsible for producing reports regarding cases at the end of the programme. This helped me to better understand how to form a position and present my ideas in regard to legislation.
- A shadowing scheme also took place during the programme, which gave an insight into the duties and responsibilities of commercial lawyers. This was beneficial in helping me navigate my degree choice and future career aspirations.

November 2018 – November 2018 - Clifford Chance

- I was given the opportunity to take part in the Clifford Chance ACCEPT 2018 open day.
 - This event gave me a unique insight into Culture of Clifford Chance. I was able to grasp the imperative of diversity at Clifford Chance and the way in which the firm sets a forward-looking example for other law firms.
 - The agenda for the open evening consisted of several presentations which were given by special speakers. I was able to see the different activities that the firm takes part in such as pro bono work and their work with National Student Pride.
 - I worked with a team of 7 and where we employed the information we acquired from our insight into Clifford Chance to create a 60-second presentation, about the way in which Clifford Chance could improve its stand at the National student pride careers fair.

Other Work Experience

April 2018 – April 2018 - Financial Conduct Authority

- During this spring week, I attended a series of seminars which made me familiar with the culture and the values of the FCA & I was shown the different departments of the FCA and given the opportunity to shadow a few members of different departments.

- I created a presentation in a team of six people. The presentation was based on new campaign ideas to improve the FCAs presence on social media. I am now very confident in delivering effective presentations. I was also able to employ my team working skills to create a well thought out presentation.
- This experience was very fulfilling and informative I was able to see the inner workings of an organisation, this was an invaluable experience.

June 2018 – June 2018 – JP Morgan

- At JP Morgan, I became deeply familiar with the culture of the organisation.
- This insight day allowed me to network and grasp a deeper understanding of the private financial sector.
- I part took in a seminar which introduced me to a wider range of information about JP Morgan. I am now more commercially aware.

July 2018 - August 2018 - AIESEC 'SWADEE PROJECT 30'

- I volunteered in Thailand for six weeks. In the rural area of Chantaburi. I taught English to children in secondary and primary school
- Through this experience, my adaptability skills have improved vastly. I am able to adapt to new situations whilst ensuring productivity. I can deliver a well-executed plan with minimal instructions and communication.
- I was put in many time-limited situations where I had to think of innovative solution
