WORK

2017 - 2017

St James's Hospital • IT Consultant Work Experience

Gained hand on experience in the industry. I was informed about the role the IT department has in the hospital and the skills required to enable the, to assess and overcome problems. At the hospital I observed that confidence and communication were the key skills, especially in tasks such as, going to other departments and fixing IT issues.

2019 - PRESENT

Argos • Customer Service Advisor

I am given the responsibilities of collecting items from the stock room and then handing these items out to the customer using the call forward system. From working at argos I am gaining experience in customer interaction and how to resolve problems successfully under pressure.

SKILLS

Photoshop

Maya

Video Production

Nuke

Premiere Pro

I am currently learning about animation principles and practice, video production and advanced post production. The visual effects element of the course covers techniques from digital compositing to 3D character animation and dynamic simulation. I am learning to use software such as Maya, Nuke, Photoshop and Blade.

INTERESTS

Netball

Sketching

Movies

Photography
