## Summary

Tech-savvy, multi-lingual biomedical engineering student seeking summer work experience in health and technology settings.

---

## Career History

### **Technical Assistant – Physical Rehabilitation Clinic      April 2016 – May 2016**

**Romualdo Marcilio** – Willesden Green, London

- Assisted with administration, dealing with confidential information from the clinic's patients.
- Strengthened my IT skills, using my knowledge of computers to work efficiently.
- Translated multiple crucial documents from Portuguese to English.

### **Brain Research Cancer Lab Assistant – Imperial College**

**John DeFelice** – White City, London

**October 2016 - November 2016**

- Adapted to a high-pressured environment, requiring high amounts of concentration and diligence.
- Dealt responsibly with very expensive (and sensitive) materials and equipment.
- Communicated efficiently with doctors and Ph.D. students on site to produce high standard of work

### **Site Supervisor – Christian Aid**

**Peter Kobelis** – Waterloo, London

**July 2018 – September 2018**

- Acquainted quickly to the inner workings of the company building, dealing with the allocations of important, daily delivered packages.
- Required to perform tasks to a very high standard with little room for error

### **Private Tutoring**

**August 2016 -November 2018**

- Explained complex concepts in simple terms to increase understanding of pupils.
- Taught one to one meeting for subjects of science, mathematics and foreign languages.

### **Pharmacy Assistant – Bow Pharmacy**

**June 2015 – June 2015**

**Sayed Abdula-** Bromley By Bow, London

- Learnt very important rules of conduct on how to deal with customer's personal complications.
  - Interacted frequently face to face with old and sometimes very sick costumers.
- 

## Specific Skills

- **IT** – Well versed in Microsoft Office and computer coding, using to make schedules and completing projects for degree.
  - **Mathematics** – Confident with mathematics, Highest A-level grade from my academic year.
  - **Languages** – Fluent in Portuguese. Basic/Conversational Spanish.
  - **Articulative** - Represented my College in a public debate hosted at London City Hall.
- 

## Education

### **Further Education:**

**\_2018 – 2021**

**Aston University, Birmingham, UK**

**Biomedical Engineering MEng**

- Key Modules – Software Engineering, Electronic Engineering, Human Anatomy & Physiology, Mechanical Engineering.
- Valuable skills such as Computer coding and Robotics being developed through extensive group projects.

### **A-level:**

**2015 - 2018**

**Tech City College, London**

- Mathematics- A, Biology- D, Physics- C

**Sir John Cass Sixth Form, London**

### **AS-Level:**

**2015**

- Portuguese (C)

### **GCSE:**

**2015**

- 12 GCSEs A – C; including Mathematics (A) and English Language (B)
- 

## Interests

Cooking, knitting, computer programming, playing instruments, gardening and rock climbing.
