Mr. Jyram Sharma Curriculum Vitae

I am a highly motivated second-year student interested in technology and its applications in creating superior systems to solve real-world problems. I have used big data to create a safety solution as an answer to the increase in knife crime in London. I also have work experience in finance and cybersecurity at government organisations which has given me a solid foundation in the industry.

SKILLS

- Fluent in Java, Python, HTML and SQL
- Applied Object-Oriented Programming concepts
- Applied a variety of Restful API's
- Implemented applications using Android Studio
- Effective at communicating ideas
- Self-initiative

EDUCATION

Brunel University London **2018 - Present**
Computer Science BSc (Currently: Year 2)

British School Al Khubairat, Abu Dhabi, United Arab Emirates **2012 - 2018**

- A-Levels: AAAC in Math, Economics, EPQ and Computer Science respectively
- GCSEs: 8 at grades A*-B

WORK EXPERIENCE

Cyber Security Intern, Injazat Data Systems, Abu Dhabi, UAE **June 2019**

- This was a month-long internship I found for myself during the summer between my first and second-year university.
- I helped negotiate vendor contracts to meet the needs of Injazat.
- Compiled use cases for the Security Information and Event Management (SIEM) software that was used to help decide on which software solution the company should use.

Global Markets Intern, National Bank of Abu Dhabi, Abu Dhabi, UAE **June 2015**

- Here I shadowed many teams within the Global Markets department which gave me an introduction to the finance industry.
- Sat in on meetings between various departments which showed me how to communicate in a professional environment.
- Assisted managers by running errands around the office.

OTHER EXPERIENCE

Jacobs Hack hackathon, Bremen, Germany **November 2018**

- Won 'most disruptive' project
- This was a personal trip I went on with a friend from school.
- Worked in a team of two to build a fully functioning application that found the safest route to a destination using London police datasets. The idea of this came after the rise in knife crime in London, England.
- Effectively communicated our project to judges which benefited our team over others.

Financial Markets Signalling Business **August 2015**

- Over 100 paying monthly customers
- The idea for this came to me as a way to limit my losses after personally losing money trading company shares.
- I hired traders to supply market forecasts which I would then provide to my private member's group.
- Learned the importance of customer relationships, working under pressure and managing people remotely.

Independent Courses

- AWS Cloud Computing
- CS50 Harvard University
- The New Boston Java intermediate course
- Programming Knowledge Java course

INTERESTS/HOBBIES

- Personal finance - My interest began after listening to a podcast which caused me to buy Unshakable by Tony Robbins. This has led to me sharing knowledge with my peers as the traditional education system fails to teach this.
- DJing - This started as a hobby done at home but led to performing at corporate events in Abu Dhabi during my holidays while at secondary school.
