Education and Qualifications:

2018-2021

- Studying Economics and Management at Brunel University.

2016 - 2018

Sixth form at London Academy

- A level: Biology(B), Economics(B), Psychology(A)
- AS: Biology(D), Economics(C), Psychology(C)

2015 - 2016

I had my secondary education in London Academy from year 7 to year 11

- GCSE: Triple science(A), Maths(A), English(B), History(A), Spanish(A), Art(B), Business studies(A*)

Work experience:

October 2019 - present

Rota

- Rota is a leading hospitality staffing agency. I joined them due to the flexibility it gave me to earn extra income whilst studying. I have worked in various hotels and venues as a waiting staff which has made me a flexible individual adapting well to various environments I needed to work in. I believe this experience helped in developing my interpersonal skills. I began with no knowledge on waiting staff duties and my willingness to learn has helped me to thrive and adapt well.

February - June 2017

CHIP Mentor

- I applied for this during the 1st week of sixth form. I had CHIP mentoring training where we learn how to mentor younger kids who are or may be dealing with issues that affect their academic life, be it at home or school. During the mentoring I have dealt with difficult situations from our sessions with our mentees. I also covered the importance of confidentiality. This experience has helped me to compose myself in difficult situations and increased my capability to work under pressure.

11 - 17 February 2017

Baylor Klein

- Through my internship at Baylor Klein I have gained an insight on M&A. During my internship I learned about; the effect of Brexit on consumers and major players in the household and personal care industry. I have also done some general office administration whilst interacting regularly with senior directors, working closely with all the members of the team and contributing to their work and constantly meeting goals. I believe I can transfer these research and team work skills into other financial sectors of outside of M&A.

Additional Information:

2018

- Subscribed to Financial Times, so am regularly updated with the latest news of our financial sector.

2016

Work related learning

- This was a learning experience where a group of people came over to my school to help cultivate skills that are required or will help me in my future employment. That experience helped me to adapt to my environment, pushed me to work efficiently and well with groups of people never associated with. All this now helps me to confidently and efficiently work with all type of people.

2011

- Fundraising for charity to support other children around the world to receive education. We managed to raise £300 for this cause.

2010-2011

- Captain of the Netball team and we managed to get gold in the Barnet game.

2010/2011

- Won silver medal for relay in our annual Copthall tournament.
